Spyros Tserkezos

Frontend Developer

I'm a Junior Frontend Developer who recently completed a 6-month internship focusing on React, TypeScript, and Tailwind CSS, with a passion for building clean, functional, and visually polished web interfaces. Creative by nature, consistent and always in search of growth, both as a developer and as a person.

INTERESTS

Gaming
Chess
Basketball
Guitar & Music Composition

WORK EXPERIENCE

Frontend Developer Intern — Jul 2025 – Dec 2025

Gaspar AI, Athens, Greece

- Implemented UI/UX improvements on the Admin Portal and Commercial Site using React, TypeScript, and Tailwind CSS.
- Used DevSpace to sync and run local development inside a Kubernetes cluster instance.
- Built docs.gaspar.ai, the company's official documentation site using Docusaurus and React, live in production and actively used by customers.
- Developed a Chat Virtual Assistant widget using Zustand state management, custom hooks, and file context support.
- Deployed features to production via CI/CD pipelines using GitHub.
- Collaborated with the development team using Git, GitHub, Jira, and Slack for sprint planning and task tracking.

PROJECTS

PortfoliOS+ ↗ Live ↗ GitHub
React · TypeScript · CSS3 · Rest API · Zustand
OS-inspired portfolio simulating a desktop environment in the browser, featuring a boot sequence, draggable windows, a weather widget fetching live data from a REST API, and a radio player.

Atrani Store - E-Commerce ↗ Live ↗ GitHub
React · TypeScript · Tailwind CSS
E-commerce demo for a luxury accessories brand (watches, pens, inkwells & compasses) with product pages, cart functionality built with Zustand, and smooth animations using Framer Motion.

Gaspar AI Documentation ↗ Live
Docusaurus · React · TypeScript
Documentation site for Gaspar AI built with Docusaurus during my internship. Currently live and actively used by customers in production.

Chat Virtual Assistant ↗ Live ↗ GitHub
React · TypeScript · Tailwind CSS · Zustand
Chat widget with mock conversation data, file context support, persistent chat history, and typing indicators.

Grill Gamers YouTube Bot ↗ Live ↗ GitHub
Node.js · Axios · node-cron · Upstash Redis · Render
YouTube bot that monitors a channel and automatically notifies a Discord server when a new video, short, or live stream is published. Queries the YouTube Data API every 15 minutes and posts to Discord via Webhook.

EDUCATION

Web Designer & Video Games Developer — Oct 2022 – Oct 2024

IVT AKMI, Athens, Greece
